1.2.2. Locate a chapter of a book

I want to locate a chapter or section of a book.

The name of the book is “Selling sin: The marketing of socially unacceptable products” and it was written by DK Davidson.

The chapter in this book is called “gambling in America”.

Firstly, I have checked the catalogue to see if the Library has this book (refer to the demonstration about how to locate a book in this module).

Once I have established that the Library holds the book, I then need to follow the following steps to establish if the chapter is in the book:

- Click on the link for the title of the book
